

I would strongly recommend Ed Kerr to anyone looking for a top notch trainer. He took our dog in at 7 months and delivered a very good hunting dog after two months. Throughout the training, Ed kept in close touch, always willing to give us an update on progress. He didn't mince words, telling us the good and the bad. There were several times our dog's progress was not going as well as expected, but Ed stayed with it and delivered on his commitment. We appreciate Ed's training methods, compassion, and knowledge and would give him and his operation an enthusiastic thumbs up!
