

Gillie was our first experience with Ed and Emily at Shining Star GSP five years ago. We were immediately struck by their love of the dogs, passion for the highest quality breeding and incredible blood lines.

It was difficult bringing her back for two weeks of puppy training and then even longer for 8 weeks of hunting/finishing training – because we missed her so much! She has an awesome personality and is super responsive to commands both at home and in the field. I love to watch her cross and hunt and unlike various pointers I've hunted with, she's always aware of and monitors my location when we are in the field.

We've been so pleased with Gillie, that we returned a year ago and came home with Bertie. She quickly bonded with Gillie and has become a special part of our family! After puppy training, Ed's advice was to hunt with her at 6 months and to just let her have fun and let her "prey drive" run free without corrections. I had a blast watching our little brown tornado working with Gillie and on her first hunt she had a couple beautiful points and retrieves! I was just in awe.

For me, the best part of a hunt is watching these amazing dogs work. On top of that, they both have awesome, unique personalities, are truly beautiful creatures, and are excellent around the house. Shining Star GSP is simply and excellent breeder, and Ed is also an outstanding trainer for all types of pointers. Their history, experience, and track record of developing true champions, is incredible.

If you're into German shorthaired pointers, I highly recommend Ed Kerr and Shining Star GSP. – Mike Happe, Minnetonka, MN
